

## THE ARTISTRY OF MILL CABINETRY UNION CARPENTRY'S BEST-KEPT SECRET

# MILL CABINET CARPENTRY:

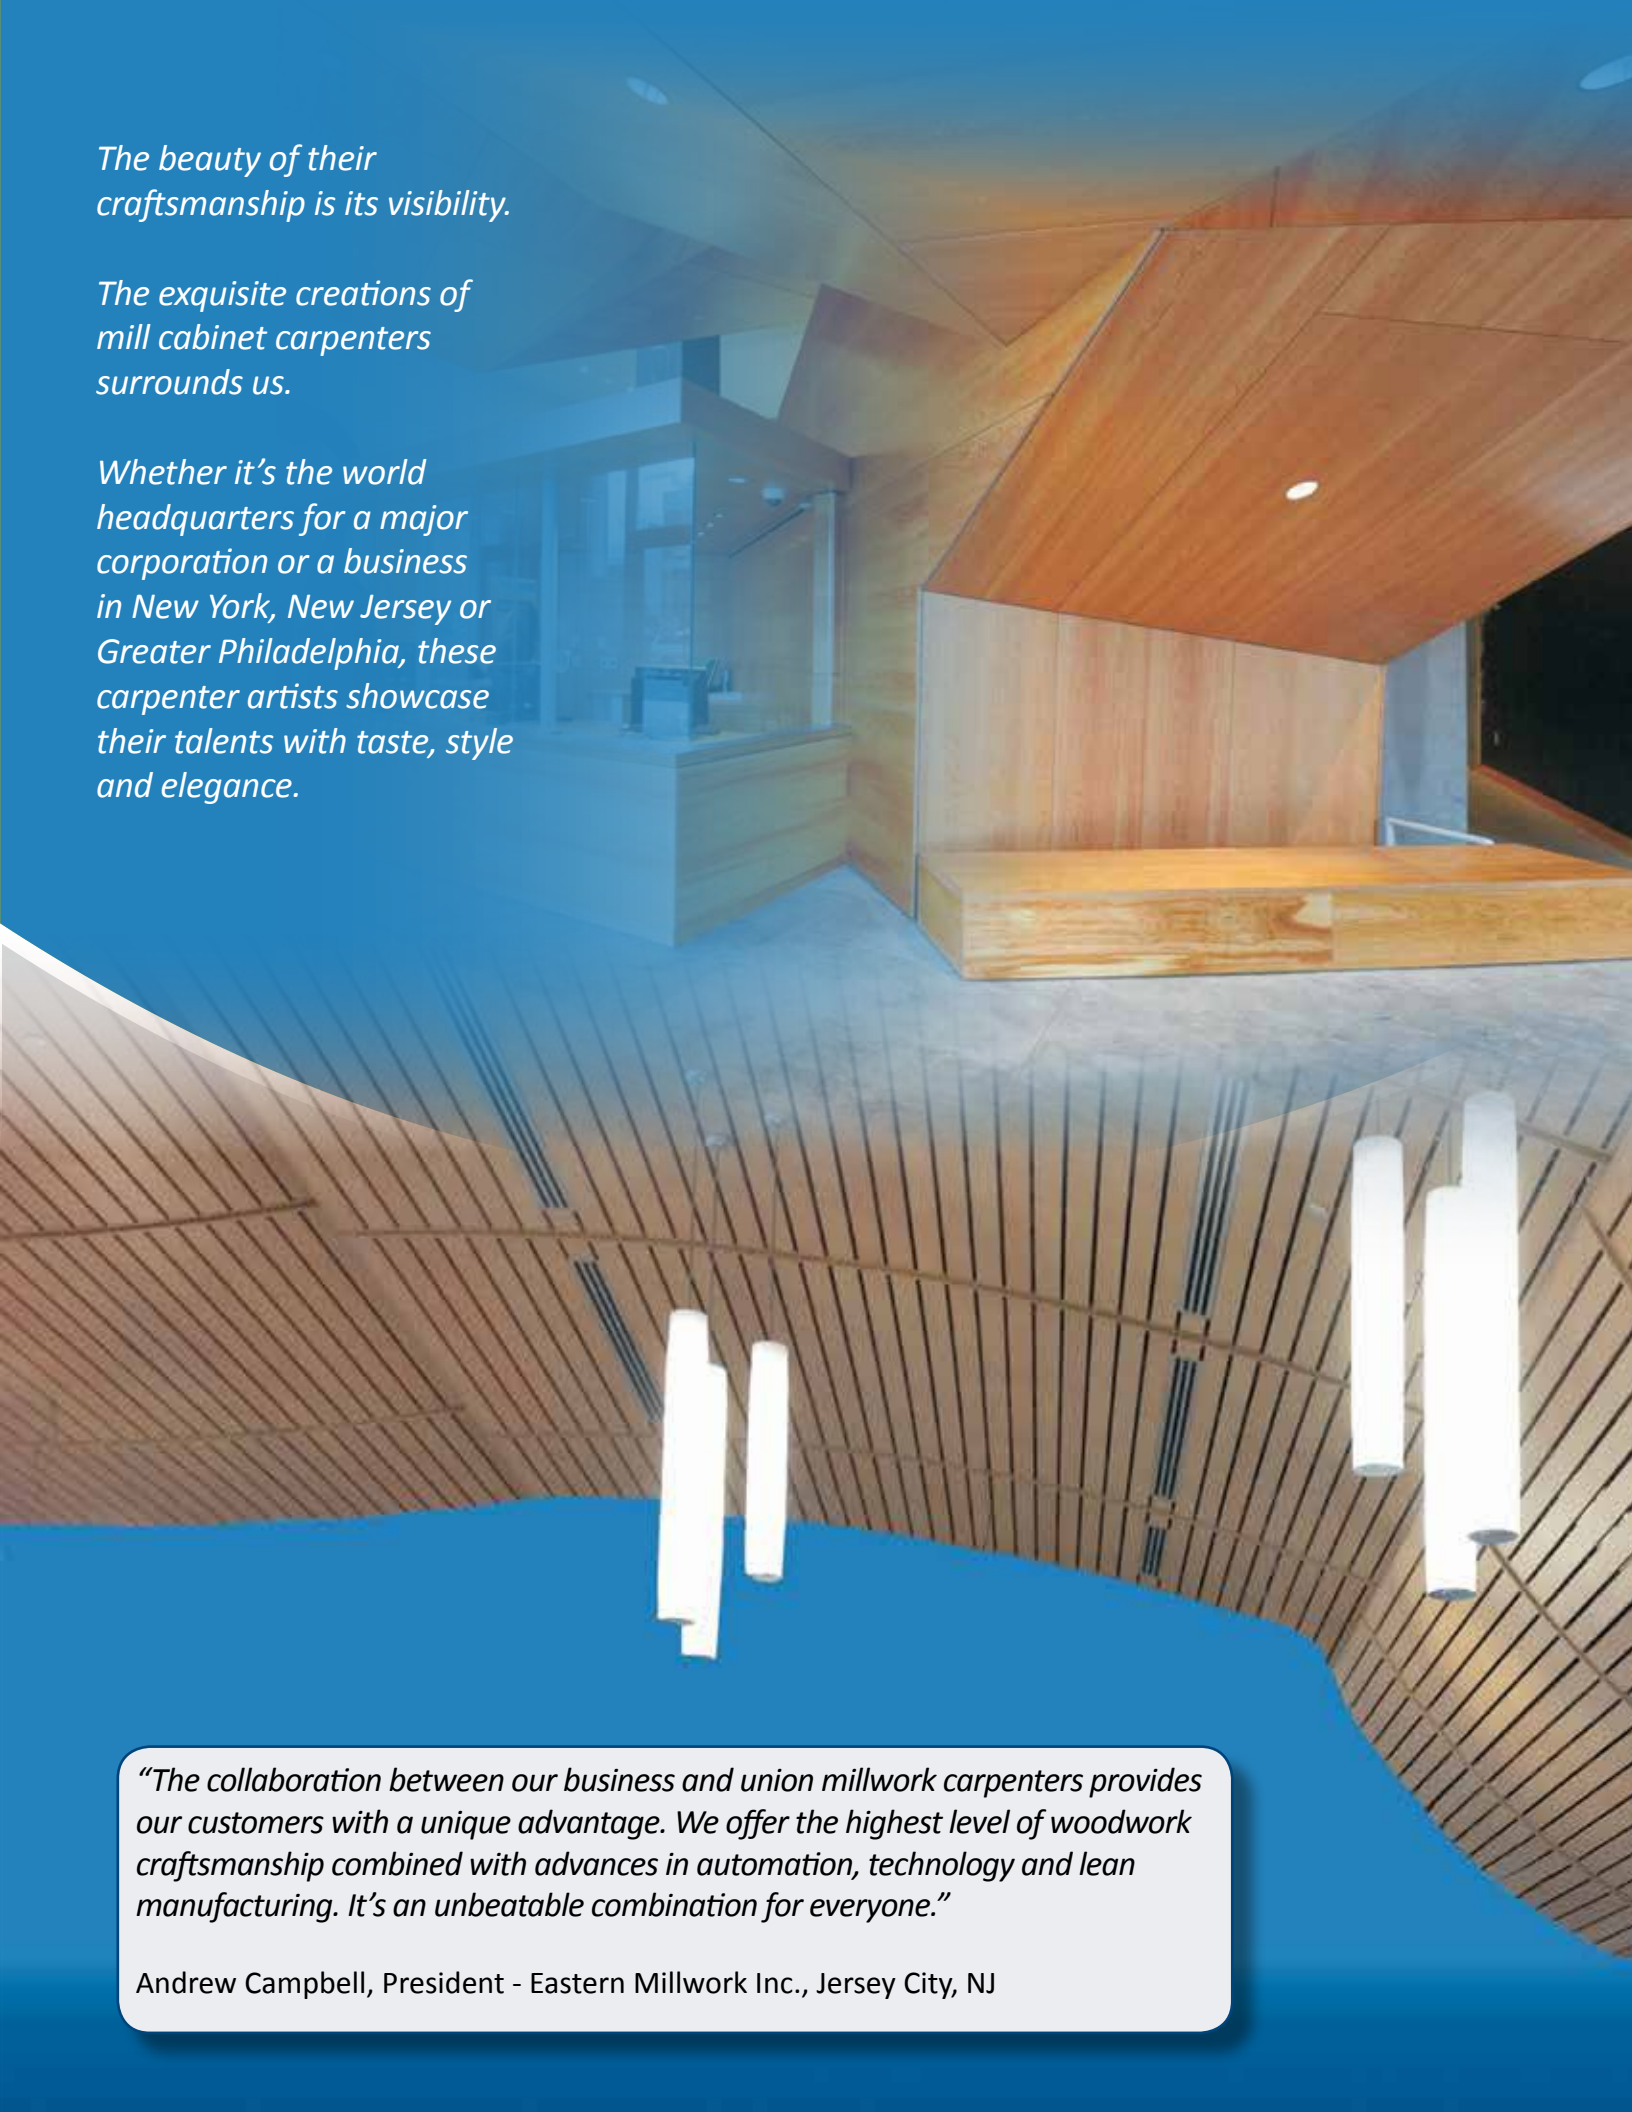

*Their Artistic Ability is Everywhere*

**Mill Cabinet Carpentry** projects are visual testaments to the skill demonstrated by the artists of the carpentry trade, the men and women who are at the pinnacle of their profession. They produce fine woodworking of museum-quality, doorframes and other trims and moldings for corporate, commercial and residential projects.

Union mill cabinet carpenters, the best kept secret in the carpentry industry— delivering a final product that creates that “ah-ha” moment when you first see it.

*The beauty of their  
craftsmanship is its visibility.*

*The exquisite creations of  
mill cabinet carpenters  
surrounds us.*

*Whether it's the world  
headquarters for a major  
corporation or a business  
in New York, New Jersey or  
Greater Philadelphia, these  
carpenter artists showcase  
their talents with taste, style  
and elegance.*

*"The collaboration between our business and union millwork carpenters provides our customers with a unique advantage. We offer the highest level of woodwork craftsmanship combined with advances in automation, technology and lean manufacturing. It's an unbeatable combination for everyone."*

Andrew Campbell, President - Eastern Millwork Inc., Jersey City, NJ

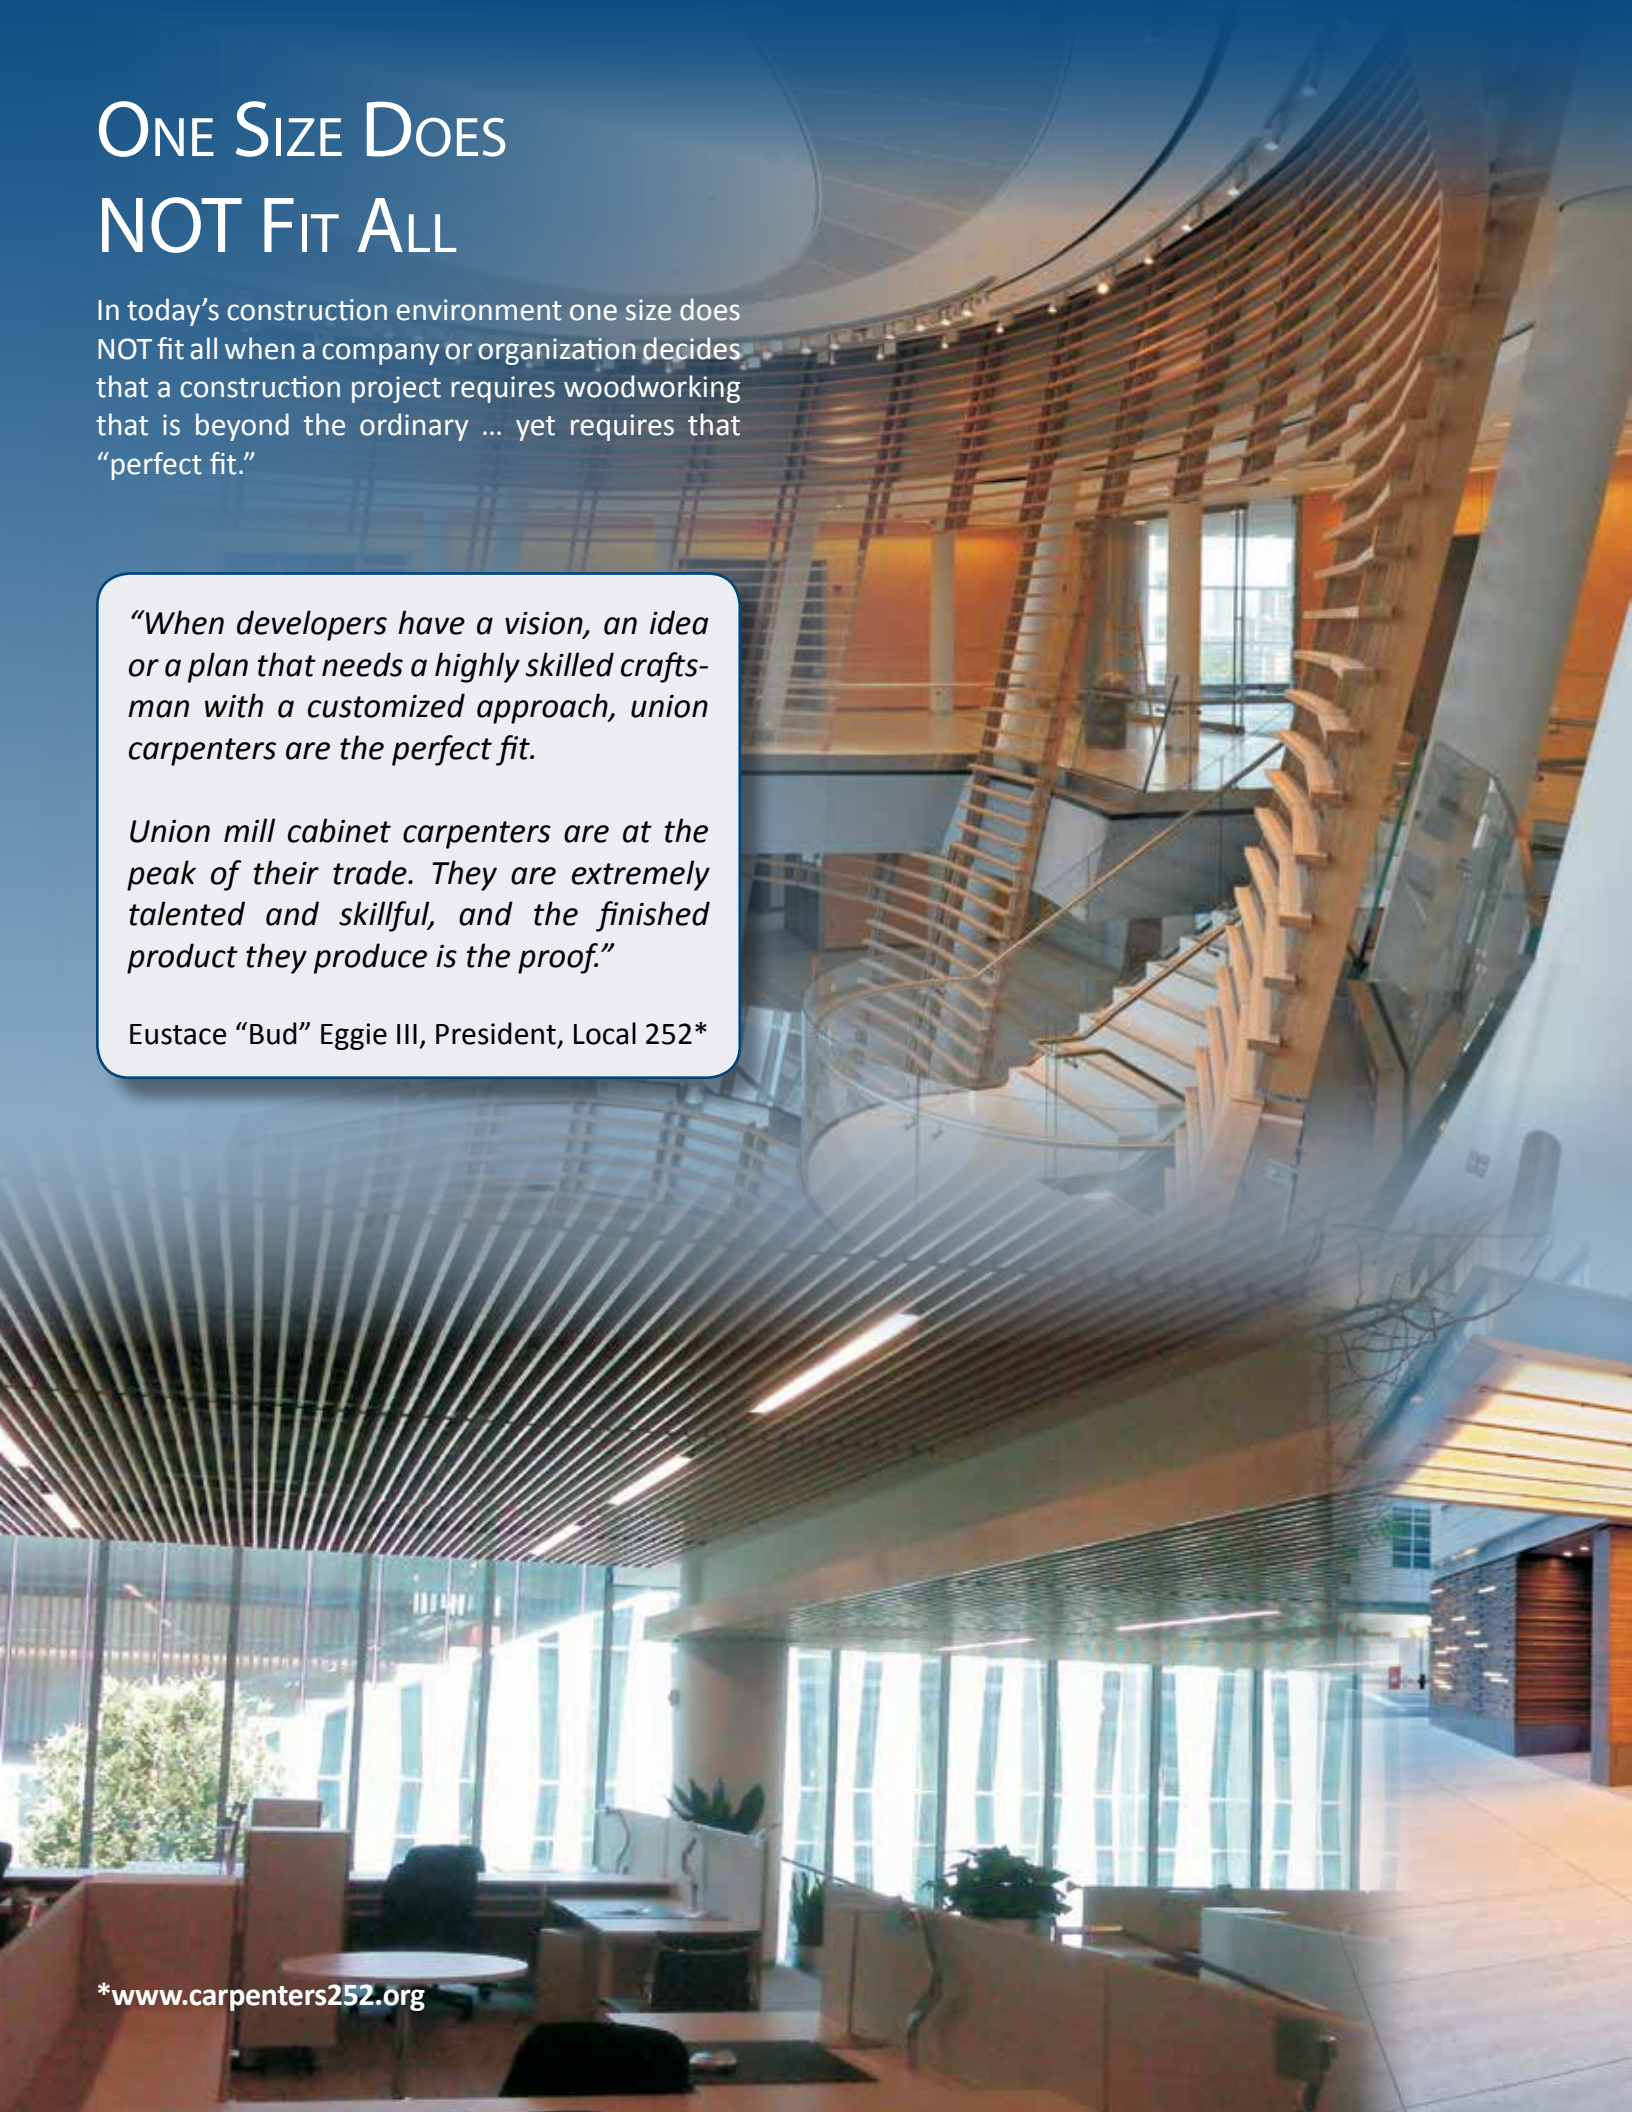

# ONE SIZE DOES NOT FIT ALL

In today's construction environment one size does NOT fit all when a company or organization decides that a construction project requires woodworking that is beyond the ordinary ... yet requires that "perfect fit."

*"When developers have a vision, an idea or a plan that needs a highly skilled craftsman with a customized approach, union carpenters are the perfect fit."*

*Union mill cabinet carpenters are at the peak of their trade. They are extremely talented and skillful, and the finished product they produce is the proof."*

Eustace "Bud" Egge III, President, Local 252\*

Mill cabinet carpenters and contractors also apply their talents to a broad range of projects that require their customized touch, including:

- Corporate Headquarters
- Museums
- Tradeshow Exhibits
- Casinos
- Hospitals
- Conference Centers
- Shopping Malls
- Restaurants
- Business Offices
- Professional Buildings
- Hotel Lobbies
- Banks

Examples of their craftsmanship are evident in high visibility projects throughout the Northeast Region.

**Union carpenters and mill cabinet shops' translates into creativity and success for developers.**

# ARTISTRY LINKED TO TALENT & TECHNOLOGY

When hiring a union mill cabinet craftworker, you are investing in a highly skilled individual who has had state-of-the-art training and participates in constant upgrading and refresher courses.

Union mill cabinet carpenters must complete a rigorous, five-year apprentice program and learn the newest technologies, many of which are computer controlled and driven.

# . . . IN YOUR BACKYARD

The Northeast Region is one of the largest concentrations of mill cabinet hubs in the United States. The Northeast Regional Council of Carpenters has approximately 60 mill cabinet shops that are authorized to use the union label, ensuring quality, skill and on-time delivery. Second generation mill cabinet shop contractors operate many of these shops, and they can offer personal guidance in helping businesses through the maze of possibilities for this specialized woodwork.

These mill cabinet shops have produced quality woodwork for generations and have access to a select pool of skilled craftsmen, who incorporate the needs of the contractor and the client. The Northeast Regional Council of Carpenters creates an unparalleled competitive advantage for New York and New Jersey businesses and employment opportunities for union carpenters.

# THE CARPENTER CONTRACTOR TRUST

The Carpenter Contractor Trust (CCT) is a labor-management trust established in 2001 by union carpenters and contractors. Our mission is to promote the message of this valuable labor-management partnership, which provides public and private owners in the construction industry with on-time, on-budget, top-quality construction projects built to the highest industry standards. By adhering to its core competencies of offering a superior range of skillset, pricing flexibility, financial participation and exceptional productivity, it serves as a valuable and reliable partner for those engaged in the construction industry.

In 2014, the Empire State Carpenters Labor Management Funds and the New Jersey Carpenter Contractor Trust ([cctnynj.org](http://cctnynj.org)) merged,

resulting in a joint venture that utilizes its shared resources for the marketing and promotion of union carpenters and contractors.

This partnership combines the vast resources of the Northeast Regional Council of Carpenters' (NRCC) 30,000 members and more than 1,000 participating contractor partners. The NRCC is the skilled trade organization representing carpenters of New Jersey and New York State. This network provides investors, developers and builders with a wide selection of skills and opportunities for their projects.

Today's union carpenters and contractors are acutely aware of the constant changes within the construction industry. Our mission is to introduce and clarify our new business model that will help all end users get their project from concept to completion.

If you have an impending project, please contact us to see how we can help. A few minutes of your valuable time allows us the opportunity to provide you with access to our vast network of experts that can solve your construction challenges.
